Tech

elements:

Slabs

We manufacture **all types of floor slabs** including prestressed slabs with electrical and sanitary installations.

Walls

Prefabricated single- and multilayer wall elements with insulation layer, built-in elements such as windows, electrical sockets, etc.

Design

elements:

Walls

Facade layers may be smooth or textured, surfaces in a whole range of colors, brick faced, finished with mineral plasters, washed aggregate or with imprint of decorative matrix.

Balconies

Systems of balcony plates include insulation connectors and various range of fasteners.

Columns

Made with a matrix imprint (rectangular and round)

Stairs and landing

Elements of staircases, including prefabricated stair flights with anti-slip patters, terrazzo finish, built-in elements for railings.
